“Pitches with individual facilities certainly book much quicker than those without.”

INCREASE
PITCH FEES BY
30%

Generating new revenue streams

Today's campers are demanding more from their chosen sites & providing them with their own private toilet & shower facility right there on the pitch can increase your pitch fees by 30%.

Charge higher night rates and our Pitch Pods will cover their costs in the first season through higher occupancy rates.

Our units are simple to fit, being dropped off complete and ready to plug in, so no on-site build requirement.

- They are easy to maintain and can be sluice cleaned like any wet room.
- The cladding is high quality renewable timber and is guaranteed for 5 years.
- Available in a range of finishes to fit with your park's look and feel.

Optional Extras ▶

Colour Coordinated Door

Underfloor Heating
